Dotec-Audio DeeFat
User's Guide

1. **About DeeFat**
   Thank you for choosing Dotec-Audio DeeFat.
   DeeFat is a VST plugin with following features:

   - Only one slider will control compressor to get FAT sounds.
   - Can be used in LIVE situation since DeeFat runs fast and works gracefully

2. **Installation on Windows OS**
   1. Unzip the downloaded file
   2. Confirm whether your DAW is 32bit version or 64bit version. Use the DeeFat.dll in "Win32" folder if your DAW is 32bit version, or in "x64" folder if your DAW is 64bit version.
   3. Copy the appropriciate "DeeFat.dll" file to your DAW's VST Plugin folder. (Please consult your DAW's documentation to confirm the VST plugin directory)

3. **Installation on MacOS**
   1. Unzip the downloaded file.
   2. Move a file.
      1. **(VST)** Move the "**DeeFat.vst**" file to "**Macintosh HD/Library/Audio/Plug-Ins/VST/**".
      2. **(Audio Unit)** Move the "**DeeFat.component**" file to "**Macintosh HD/Library/Audio/Plug-Ins/Components/**".
   3. If your DAW is running, close it and restart it. When your DAW starts up, it will rescan your plugins folder and detect your recently installed plugin.

4. Panel Description

Enable/Disable Switch (Lightning Switch)
Enables/Disables DeeFat.

FAT
When a slider is lowered, the effect becomes strong.(0 to 100%)
