

# Dotec-Audio DeeMMax

## User's Guide

### About DeeMMax

Thank you for choosing Dotec-Audio DeeMMax.

DeeMMax is a VST plugin with following features:

- You can easily add loudness. Only one slider will control everything.
- You can get the big loudness with a clean & transparent at mastering.
- You can priority to dynamic ranges due to using Softness dial.
- Monitor switch constants volume level of input&output for monitoring.

### Installation on Windows OS

1. Those plug-ins are provided as a .dll and .vst3 and .aaxplugin folder (AAX).
2. To install the plug-ins, simply copy it to your system's shared VST or VST3 or AAX folder.  
**AAX folder** : *C:\Program Files\Common Files\Avid\Audio\Plug-Ins*
3. If you're not sure where that is, please consult your music software's documentation.
4. If your music software is already running, you'll probably need to quit and restart if before the plugin is recognised.

### Installation on MacOS

1. Those plug-ins are provided as a .vst (VST) and .component (AU) files and .aaxplugin (AAX) files.
2. To install the plug-ins, open “**install.pkg**” and follow the installer instructions.
3. If your music software is already running, you'll probably need to quit and restart before the plugin is recognised.

## Panel Description

**Enable/Disable Switch** (Lightning Switch)  
Enables/Disables DeeMMax.

**MAX**  
Add loudness. Clicking number display to changing display in dB from %.

**SOFTNESS**  
Control priority to dynamic ranges from 0 to 100%.

**Auto Softness Control**(upper left of SOFTNESS)  
Auto adjusting SOFTNESS.

**OUTPUT**  
Control the output level.0 to -20dB.

**MONITOR**(upper right of OUTPUT)  
Constants volume level of input&output for monitoring

**LEVEL meter**  
Level of Input and Gain reduction.

**TRUE PEAK**  
Enables TRUE PEAK. (ON when bright).  
Normally it is recommended to turn it OFF and adjust level at OUTPUT  
because it increases the CPU load and the reduction amount.  
**Using TRUE PEAK at high sound pressure will cause excessive reduction.**

## How to Register

The DOTECAUDIO product becomes the "**product version**" by registering the serial key and e-mail address in the "**demo version**".

This section describes how to register the serial key you purchased.

### Step 1

You can register serial key by clicking registration button.

### Step 2

A screenshot of a 'Registration' dialog box. The title is 'Registration'. Below the title, it says 'Please enter the serial key and your e-mail address for the registration.' There are three input fields: 'Serial key', 'E-mail address', and 'E-mail address(Verify)'. Each field has a red arrow pointing to it. At the bottom, there are three buttons: 'Open the shopping page', 'Cancel', and 'OK'. The 'OK' button is highlighted with a red rectangle.

This window will be displayed.

Please enter a serial key and your email address in the textbox and click OK button.

**\* The registration requires an internet connection.**
